

List of fees and charges 2008:1

NCSN Network Services - Finland

This list of fees and charges is valid from 1 January, 2008

Service fees are reviewed annually in accordance with the confirmed pricing principles. In the event service charges of a supplier of the Finnish Central Securities Depository Ltd (APK) change, APK will change its fees accordingly.

APK will debit fees from the client company three months in advance.

Prices are quoted here in euros (EUR) unless otherwise stated.

APK's services are subject to Value Added Tax (VAT). Services related to clearing transactions are VAT exempt. Prices are given exclusive of VAT.

The VAT will be added in the service fee when invoiced. In the event taxes or public charges pertaining to services are altered, APK will revise its fees accordingly.

APK does not apply any schemes on discounts or rebates.

Invoices are available in English and Finnish. Customers are welcomed to choose the preferred language.

The product ID numbers can be found on invoices.

SWIFT Shared Connection Service

Staff service charges

General principles

NCSD requires both main and back up connections for production services provided over the NCSD Network

There are two backup connection options available - leased line or secured internet connection

Backup connection is Secure Gateway (SG) with customer provides dedicated Internet connection (customer provides IP Access)

Services of Finland and Sweden are available through one connection either in Finland or in Sweden and pricing is based on location of connection

This price list is valid for all NCSD Network connections in Finland independent of customer role

Client to choose the bandwidth, approved by NCSD

Changes to be charged according APK's and service provider's price lists

In case customers are using other network solutions (PAVE, HEXNet) this network price list is applied

APK will debit the client company three months in advance

Line charges will be debited in three month periods in advance

For prices in Sweden see NCSD Sweden's List of fees and charges

Main connection installation fees - leased line

It is also possible to take another leased line for backup connection

SWIFT Shared Connection Service in NCS D Finland

Swift Shared Connection Service makes it possible to connect to SWIFT network through NCS D infrastructure. Participants establish SWIFT membership with their own SWIFT address (BIC) and remain in this respective independent of NCS D as service supplier. Customer pays and is responsible for all transaction fees and other fees related to SWIFT membership according to SWIFT price list and customer's agreement with SWIFT. The NCS D SWIFT Shared Connection Base Offering is restricted only up to 500 FIN messages per day and includes four terminal users (two concurrent user).

Base offering fees for shared connection

Implementation project including installation fee	5 000,00	468
Establishment of two concurrent user (includes four terminal users)	3 000,00	466
Monthly fee for two concurrent user (includes four terminal users)	250,00 / month	467

SWIFT Alliance Access destination
maintenance

The cost is up on the customer transaction volume ("SWIFT Band") and is billed to NCS D by SWIFT. NCS D passes this cost on to the SWIFT Shared Connection customer.

Staff service charges

These prices applied when customer requests changes to current installation.
